About Me

Enthusiastic software engineer with 4 years of professional experience and currently pursuing a bachelor's degree in software engineering. Proficient in developing robust web applications and backend systems, with a focus on writing clean and maintainable code. Experienced in collaborating within diverse teams on various projects. Adaptable to both remote and office work environments. Committed to continuous learning and staying updated with emerging technologies.

Experience

Digital Perception

2022 - 2024

- Contributed to web development projects utilizing HTML, CSS, JavaScript, Git, and GitHub under the mentorship of experienced developers.

Freelance Ventures: Java and C++ Developer

2021 - 2024

- Independently developed a diverse range of projects in Java and C++, demonstrating expertise in SQL, Object-Oriented Programming (OOP) principles, and advanced data structures and algorithms. Created interactive games and applications with graphical user interfaces leveraging Java libraries such as Swing, and implemented client-server communication through socket programming.
